January 1, 2017

New Year Greetings to TPAA members and family,

On this first day of the year, I am sending my best wishes to you. May you and your loved ones be blessed with good health, happiness, wealth and wisdom through the year and beyond.

I am beginning my second year of TPAA presidency with great enthusiasm and am excited for our association. I am truly happy to welcome Dr. Sunti Srivathanakul to join force with me as President Elect of TPAA 2017, and the good news is that he will serve as our president for two years (in 2018 and 2019). The future of our association seems bright and is very much on the expected path. My team of officers and advisory councils will always be ever ready to lend a hand to Dr. Sunti whenever he needs help.

As we Thais are still grieving and mourning the loss of His Majesty the late King Bhumibol Adulyadej, our upcoming convention in February will be conducted within the social limitation as set forth by the government. It is an opportunity for us to visit and pay our last tribute and respects to His Majesty the late King at the Grand Palace where he is lying in state. To show our gratitude in remembrance of our visionary and humanitarian late King, we make pledges to follow in his footsteps and his teachings, to always do good deeds for the benefit of society and people of Thailand. I am inviting all members to please

Thailand, from February 10th through March 15th, 2017. TPAA members could commemorate the benevolence and grace of His Majesty the Late King by participating in our Medical Mission and Rural School Project at Phurua (อำเภอภูเรือ จังหวัดเลย) on February 14th and 15th, 2017.

TPAA in collaboration with Piyavate hospital will present a CME symposium on February 20th - 21st, 2017, titled **"All Things Diabetes Mellitus and Current Management"**. Members will learn about the many aspects of the disease, its various complications and new development in medical management. It is never too late to send in your registration form. Evening events have been thoughtfully planned so members can enjoy the great foods, good company and be entertained. See details in the attached schedule of convention.

Piyavate hospital will host a luncheon on Wednesday February 22nd that will be followed by Pipit Lectureship and an interesting and generous hospitality event in the afternoon before the General Assembly. We will have a wonderful evening get-together and dinner as a "Night of Nostalgia" at the AVANI Atrium Bangkok Hotel. All are warmly invited and welcome to be a part of the celebration of 39 years of friendship. You will be pleasantly surprised to find some treasures from the past at this event. So mark your calendar and prepare to have fun.

Last but not least are the pre-convention tour and two separate post-convention trips to two countries. The enrollment is still open for all tours. Please call me if you have any questions, or to enroll. Your participation is always appreciated. This summer, TPAA hosts a fundraising tour of England, Wales and Scotland from July 26th to August 9th, 2017. Before the end of the year, please join Western chapter at the ALL-Chapter meeting aboard the Princess Ruby Cruise Ship departing from Los Angeles to the Mexican Riviera, December 9th - 15th, 2017. I strongly encourage you to read the details of those tours on tpaa.us, and send in your applications as soon as you can.

Please know that your donations are greatly appreciated and the funds will go to help the people in Thailand. I hope you will allow me to count on your generous contribution to TPAA Rural School Project and Medical Mission 2017. Your donation is fully tax deductible. The contribution form is attached herein.

Thank you for your staunch support and participation in TPAA's mission and fundraising efforts. I am looking forward to seeing you at the convention 2017 in Thailand. Safe travels to all.

Best Wishes for a Happy New Year,

Siriporn Kulkamthorn, MD.
President, TPAA 2017

Letter from Dr. Chareong Chandrakamol M.D.

Distinguished guests, ladies and gentlemen

It is my great pleasure to extend the warmest welcome to all honorable guests to the 39th Annual Convention of Thai Physicians Association of America on February 20th-21st, 2017. This year, the conference spotlights one of the most critical health concerns in the global community under the topic "All About Diabetes Mellitus". As you may have known, Diabetes Mellitus affects a vast majority of people around the world and its prevalence has been maintained at an alarming rate. Actually, International Diabetes Federation estimated that 1 in 11 adults lived with it in 2015, and, by 2040, 1 in 10 adults is expected to be affected by this chronic disease that leads to multiple complications and deteriorated quality of life. Needless to say, this is the world's urgent matter.

Established in 1993, Piyavate Hospital is considered a home for the best comprehensive Diabetes treatments. We are known for our Diabetes Mellitus Foot Center, having treated more than 1,200 patients per year from around the globe. For this reason, we are in a proper position to host the discussions about this critical topic. I truly believe that this collaboration among TPAA, Piyavate Hospital, and Bangpakok 9 International Hospital will enhance our understanding of the diseaseandbroaden our knowledge about updated medical treatment and management of diabetes. Above all, it will strengthen along-lasting bond between TPAA members and the Thai physician community. During our 2-day convention, we will have opportunities to share views on the current status of the medical arena, its progress, and its futuristic destination as seen by respected scholars and practitioners.

On behalf of Piyavate Hospital and Bangpakok 9 International Hospital, I would like to express my sincere appreciation to the Board of Director of TPAA, the Board of Director of Piyavate Hospital, the Board of Director of Bangpakok 9 International Hospital, Piyavate's TPAA Conference Board, and all contributors, who, together, have perfected this convention. I wish you a fruitful academic exchange and enjoyable visit in our cordial reception. Thank you.

Chareong Chandrakamol M.D.

TPAA 2017 Officers , Committees and Boards of Directors:

President : Siriporn Kulkamthorn, M.D.

Vice Presidents :

Premvadee Chantra, M.D. (voting)

Dear TPAA Members,

On behalf of Piyavate Hospital and Bangpakok 9 International Hospital, we would like to welcome all of members and participants from TPAA and we are very proud to be able to host the 39th TPAA Annual Convention here at TRIA, Piyavate Hospital from February 20th to February 22nd , 2017 with all of you.

Before we start the convention "All things Diabetes Mellitus and Current Management", I would like to express my gratitude to your committee, who generously helped us make this event come together smoothly, in particular Dr.Siriporn Kulkamthorn , Dr.Chis Malaisrie ,Dr. Usah Lilavivat and Dr.Pusadee Lilavivat.

During the conference, you will get to know more about Diabetes Mellitus and its current management in various aspects and you will have also an opportunity to meet your old friends in Thailand.

The academic conference, Reception Night Party and Alumni Night will be organized at the most beautiful wellness center, TRIA at Piyavate Hospital. You will enjoy the relaxing atmosphere around TRIA.

I'm looking forward to greeting all of you here in Thailand

Chesada
(Associate Professor Chesada Sangsubhan MD)
CMO of Piyavate Hospital
Coordinator of the convention
